10 at \$1,000  
25 at \$500

## **Why we need to invest in IUSD school nurses?**

- The IUSD difference: a comprehensive approach to student health
- As a team, you create a safety net that “leaves no child behind”
- You establish all procedures, back up plans, training and screenings
- Irvine students have a better overall health plan than most districts in CA
- Resources are limited but we are smart about how we use them
- As a community, we all work together but need your leadership

## **How can you help?**

- You meet with families regularly who value your services
- Pass out flyers to any family who supports school nurses
- Invite them to meet with IPSF any time informally to learn more
- Offer an information session on how health services are delivered in IUSD
- Ask them to tell their friends
- What other ideas do you have to let families know about the opportunity to make a donation to support school nurses?
